

Contents

Introduction	1
What Are the Learning Sciences?	1
Modern Teaching and Learning	2
Why Learning Sciences, Why Now?	3
Purpose and Scope of This Book	6
How Can the Learning Sciences Help?	7
Who Should Read This Book?	8
Note to the Reader	8
How to Move Through the Learning Journey	9
How Is This Book Organized?	9

PART I

Lessons from the Field: Learning, Design and Technology

CHAPTER 1

Educators, Learning Design, and the Science of Learning	13
ISTE Standards Connection	14
Leading Learning in the Digital Age	15
Changing Role of Teachers as Facilitators of Learning	16
Growing Together: Communities of Practice	18
Educational Research and the Learning Sciences	20
Minding the Gap between Research and Practice	20
Essential Questions of the Learning Sciences	21
Accessing Educational Research	22
Teaching as a Design Science	24
Sociocultural Context, Cognition, and Design	28
The LITE Framework: Connecting Learning Sciences to Practice through Design	29
Educators' Conceptions about the Learning Sciences	32
Chapter Takeaways	34
Suggested Activities	34
Learn More: Resources for Further Exploration	36

CHAPTER 2

Learning in the Digital Age: Theories and Implications..... 39

- ISTE Standards Connection..... 41
- Educators, Ideas, and Learning..... 41
- Teaching and Knowledge Transmission..... 43
- What Is Learning?..... 45
- Theoretical Frameworks 46
- Theories of Learning: A Brief Overview..... 47
- Representations of Learning Processes..... 55
- Chapter Takeaways 56
- Suggested Activities 57
- Learn More: Resources for Further Exploration..... 58

CHAPTER 3

Digital-Age Learners: Mind, Brain, and Cognition 61

- ISTE Standards Connection..... 63
- Understanding Your Learners..... 63
- Human Development 64
- Digital-Age Learners and the Brain..... 66
- Unlearning and Relearning: Implications for Digital-Age Learners..... 68
- Learning and Cognition 68
- Impactful Ideas from Cognitive Science..... 70
- Prior Knowledge 73
- Neuroplasticity 74
- What are Neuromyths?..... 75
- Motivation 79
- Learning and Emotions 80
- Adverse Childhood Experiences and the Lifelong Consequences of Trauma..... 81
- Chapter Takeaways 83
- Suggested Activities 83
- Learn More: Resources for Further Exploration..... 85

CHAPTER 4
**Effective Teaching
 for Digital Age Learning: Evidence-Based Practices** 87

- ISTE Standards Connection..... 88
- Looking through the Learning Science Lens 89
- Goals of Effective Teaching..... 90
- Teaching as a Design Activity 94
- New Pedagogies for New Literacies: Digital Tools and Technologies 95
- Key Practices for Teaching Digital Age Learners 98
- Chapter Takeaways 101
- Suggested Activities 102
- Learn More: Resources for Further Exploration..... 104

CHAPTER 5
Understanding Design for Learning..... 107

- ISTE Standards Connection..... 108
- Planning Instruction or Designing for Learning 109
- The LITE Framework..... 111
- Chapter Takeaways 121
- Suggested Activities 122
- Learn More: Resources for Further Exploration..... 125

**PART II
 Designing Powerful Learning Experiences**

CHAPTER 6
Learning Design: Critical Thinking and Problem-Solving Skills..... 131

- ISTE Standards Connection..... 132
- Critical Thinking..... 133
- Critical Thinking and Problem-Solving Skills..... 135
- Design for Critical Thinking: The LITE Framework..... 136
- Chapter Takeaways 149
- Learn More: Resources for Further Exploration..... 150

CHAPTER 7	
Learning Design: Communication Skills	153
ISTE Standards Connection.....	154
Communication: Critical 21st Century Skill	155
Design for Communication: The LITE Framework.....	157
Social-Emotional or Affective Factors	162
Activities Designed to Teach Communication Skills.....	163
Chapter Takeaways	166
Learn More: Resources for Further Exploration.....	167
CHAPTER 8	
Learning Design: Collaboration Skills	169
ISTE Standards Connection.....	170
What Is Collaboration?	171
Collaborative Learning.....	172
Design for Collaboration: The LITE Framework.....	174
Chapter Takeaways	181
Learn More: Resources for Further Exploration.....	182
Glossary	183
References	189
Index	202
